

AOP
TECHNOLOGIES

Sealing Components

AOP Technologies has been solving critical sealing applications, for aerospace, medical, semi-conductor, food & beverage, and industrial customers, for over 50 years. Our seal specialists are fully trained in both static and dynamic applications, material selection, fluid compatibility, and temperature considerations. We have the knowledge and experience to solve your most challenging sealing applications.

Custom Solutions & Services

- Sealing Components Engineered Specifically for **YOUR** Application
- Innovative Application of Standard Components in **CUSTOM** Designs
- Custom O-ring and Packing Kits built to **YOUR** Specifications
- Customer-Specific Part Numbering and Labeling
- Stocking & Packaging Programs per **YOUR** Requirements
- United States and Global Sourcing

O-Rings

Huge Inventory of Standard and Metric O-rings.

Stock Compounds:

- Nitrile 70 durometer
- Nitrile 90 durometer
- EPDM 70 durometer
- Silicone 70 durometer
- Fluorocarbon 75 durometer

Specialty Compounds Available:

- FDA Approved
- NSF listed
- Perfluoroelastomers
- Teflon Encapsulated
- Polyurethane

Hydraulic & Pneumatic Seals

- Piston Seals
- Rod Seals
- Wipers/Scrapers
- Back-Ups: O-Ring and Modular
- Fastener/Thread Seals

Custom Parts

- Custom Molded Elastomer Shapes
- Precision Lathe-Cut Seals
- Custom Extruded Profiles
- Multi-Layer/Multi-Material Composite Sealing Elements
- Cut & Vulcanized Profiles
